## GOVERNMENT OF MANIPUR PUBLIC WORKS DEPARTMENT

. . . . . . .

### QUOTATION No. MQCD/1 Dated, Imphal, the 12<sup>th</sup> February, 2015.

Sealed rate quotations are invited from the intending registered supplier/ stockiest/ dealers for "Supply of Soil Mech Laboratory and Field equipment of PWD, Manipur" and will be received upto 1.00 P.M. on 27/02/2015. The same will be opened on the same day at 3.00 P.M. in the presence of the quotationist/ representatives who may be present at the time of opening quotations.

The particulars of Soil Mech Laboratory and Field equipment to be supplied are as in Annex.- I

#### **TERMS & CONDITIONS:-**

- 1. The Equipment should be supplied within one month from the date of issue of supply order.
- 2. Any increase in taxes and charges at the time of delivery shall not be entertained by the department.
- 3. Transit Insurance: The equipment under the contract shall be fully insured against any loss or damage in transit up to delivery site at the cost of the supplier.
- 4. Terms of payment: 90% of the cost of equipment may be made against dispatch documents through bank subject to production of a bank guarantee (Annex. II) of an equivalent amount from a nationalized bank and the balance after receipt and commissioning of the equipment. The guarantee bond shall have a validity period of 3 (three) months or at least one month after commissioning of the Equipments whichever is later.
- 5. Training: The supplier shall give proper operational and maintenance training to the operators of the department.
- 6. Warranty: The Equipment supplied shall carry a warranty of 12 (twelve) months from the Invoice date for any manufacturing defects and same shall be repaired/ replaced by the supplier during this period.
- 7. All the Equipment shall be delivered to the office Premise of the "Executive Engineer, Monitoring & Quality Control Division, PWD Campus at Khuyathong, Imphal, Manipur in full good condition.
- 8. All legal disputes which may arise will be subject to the jurisdiction of the courts at Imphal, Manipur.
- 9. Rate quoted shall be inclusive of Excise Duty, CST, etc. No extra charges will be entertained.

This call of Quotation shall be available in the portal <a href="www.manipur.gov.in">www.manipur.gov.in</a>.

| 6        | Unconfined Compression Tester for load measurement, supplied with Load Frame 3 speed 50KN, Proving Ring- 2KN and dial Gauge- 0.01x25mm and Plain Platen with adapter, Split Mould and Rubber Sheath.               | 1        |
| 7        | Direct Shear Test Apparatus 2kN capacity                                                                                                                                                                           | 1        |
| 8        | Laboratory California Bearing Ratio Test Apparatus, Motorised, Three speed                                                                                                                                         | 1        |
| 9        | Liquid Limit Device, motorised, with Casagrande grooving tools and gauge block(suitable for operation on 50 Hz single phase AC Supply)                                                                             | 1        |
| 10       | Plastic Limit set comprising of glass plate, Brass rod, spatula, MoistureTin and Porcelain Dish                                                                                                                    | 1        |
| 11       | Sieve Shaker, Motorised, with Built in Digital Timer                                                                                                                                                               | 1        |
| 12       | Sieve Brass Frame 20cm diax10mm, 5.6mm, 4.75mm, 4mm, 3.35mm, 2.8mm,2.36mm, 2mm, 1.70mm, 1.6mm, 1.4mm. 1.8 mm, 1.00mm, 850, 710, 600, 500, 425, 355, 300, 250, 212, 180, 160, 150, 125, 106 microns (set of 27 nos) | 1        |
| 13       | Compaction Test Apparatus for light compaction                                                                                                                                                                     | 1        |
|          | Soil Mech Field Items                                                                                                                                                                                              |          |
| 14       | A' Drill Rod 1m long complete with adaptor                                                                                                                                                                         | 3        |
| 15       | Standard Penetration Test(SPT) Set consisting of Split Spoon Sampler, Drive Weight, Guide                                                                                                                          | 1Set     |
|          | Pipe Assembly, Tripod, with Rope 19 mm dia x 10mt length                                                                                                                                                           |          |
| 16       | In-Situ Vane Shear Test Apparatus with Dial Guage                                                                                                                                                                  | 1        |
| 17       | Plate Bearing Test Apparatus                                                                                                                                                                                       | 1        |
| 18       | Split Spoon Sampler with liner                                                                                                                                                                                     | 1        |
| 19       | Dynamic Cone Penetration Test Apparatus (DCPT)                                                                                                                                                                     | 1        |
| 20       | Grooved M.S. Plate 60cm x 60cm dia square x 25mm thick                                                                                                                                                             | 1        |
| 21<br>22 | Core Cutter                                                                                                                                                                                                        | 1        |
| 23       | Sand pouring cylinder Apparatus, 100 mm dia                                                                                                                                                                        | 1        |
| 23       | Proctor Penetrometer as per ASTM D1558  Concrete Testing Instruments, Lab Type                                                                                                                                     | 1        |
| 24       | 2000KN Compression Testing Machine Electricity operated with three load gauges 2000kN, 1000kN, 500kN,                                                                                                              | 1        |
| 25       | Benkelman Beam with Analog Dial Gauge in Wooden Carrying Case (As per IRC:81)                                                                                                                                      | 1        |
| 26       | Slump Test Apparatus with testing rod and base pl                                                                                                                                                                  | 1        |
